

## CERTIFICATE OF ANALYSIS

Product: **BIODEXIN šampon**

Batch No.: **78 61 25 A**

Expiry: **28.11.2020**

Date of production: **29.11.2018**

### Results of analysis:

| Tests                           | Specification                                                                                       | Results  |
|---------------------------------|-----------------------------------------------------------------------------------------------------|----------|
| Appearance                      | Clear viscous liquid of blue to blue-green colour may contain air bubbles. It may foam when shaken. | conforms |
| Content of the original package | min. 250 ml                                                                                         | 250 ml   |
|                                 | min. 500 ml                                                                                         | --- ml   |
| Microbiological safety          | The product must be safe.                                                                           | safe     |
|                                 | TAMC (CFU/g): $10^2$                                                                                | 0 CFU/g  |
|                                 | TYMC (CFU/g): $10^4$                                                                                | 0 CFU/g  |
|                                 | <i>Staphylococcus aureus</i> (in 1 ml): absent                                                      | absent   |
|                                 | <i>Pseudomonas aeruginosa</i> (in 1 ml): absent                                                     | absent   |
| pH                              | 4.5–7.0                                                                                             | 6.5      |

I certify that this product has been tested in the laboratories of Bioveta a.s. and has been found to meet specification requirements. Preparation is suitable with control regulations of the valid PN No. 445, spec.01.
