

## CERTIFICATE OF ANALYSIS

Product: **FIPRIN 402 mg, soluție spot-on pentru câini XL**

Batch No.: **3621B01**

Expiry: **17.3.2023**

Date of production: **18.3.2021**

### Results of analysis:

| Tests                                            | Release limits                                                                                                                                                                                                                            | Shelf-life limits         | Results                    |

| Appearance                                       | Clear, yellow to yellow-green solution. Solution is as clear as water R. Solution is not more intensely yellow-coloured than reference solution Y2. Solution is not more intensely greenish-yellow-coloured than reference solution GY 1. |                           | complies                   |
| Microbiological safety                           | Product must be safe.                                                                                                                                                                                                                     |                           | complies                   |
| Water content                                    | max. 1.5 %                                                                                                                                                                                                                                | max 3.0 %                 | 0.98 %                     |
| Density                                          | (1.018 – 1.038) g/cm <sup>3</sup>                                                                                                                                                                                                         |                           | 1.025 g/cm <sup>3</sup>    |
| Index of refraction                              | 1.40 – 1.48                                                                                                                                                                                                                               |                           | 1.44                       |
| Identity of fipronil                             | Must be proved.                                                                                                                                                                                                                           |                           | complies                   |
| Fipronil content                                 | (381.90 – 422.10) mg/tube                                                                                                                                                                                                                 |                           | 389.73 mg/tube             |
| Butylhydroxyanisole identity test                | Must be proved.                                                                                                                                                                                                                           |                           | complies                   |
| Determination of butylhydroxyanisole content     | (0.18 – 0.22) mg/ml                                                                                                                                                                                                                       |                           | 0.196 mg/ml                |
| Butylhydroxytoluene identity test                | Must be proved.                                                                                                                                                                                                                           |                           | complies                   |
| Determination of butylhydroxytoluene content     | 0.09 – 0.11 mg/ml                                                                                                                                                                                                                         | 0.08 - 0.11 mg/ml         | 0.09 mg/ml                 |
