actea™

SHAMPOO

The new frontier for skin and coat cleansing and hygiene

-  **Delicately** cleanses and removes allergens
-  Useful to **reduce** desquamation and skin dehydration
-  Contributes to **prevent** inflammation and erythema
-  **Easy** to apply and well tolerated

150 ml bottle
with flip-top cap

HOW TO USE

Apply a suitable amount of product, according to the pet's size, and gently rub in to produce plenty of suds.
Leave to act for 5 minutes then rinse.
Follow the advice from your Veterinarian on the frequency and duration of applications.

SOME USEFUL TIPS

- ✓ Place an anti-slip carpet at the bottom of the bath
- ✓ Protect ear canals with cotton swabs
- ✓ Wet the animal's coat with warm water
- ✓ Distribute the shampoo and delicately massage over the entire surface, except the face
- ✓ Observe the time of contact indicated on the box before rinsing thoroughly
- ✓ Towel dry and then use a hairdryer with warm air

Product sheet

INDICATIONS

Dermatological use shampoo for cats and dogs indicated for effective cleansing of the coat and skin. The special composition of the product gives soothing and sanitising properties to **Actea™ Shampoo**. Furthermore, it helps maintain the normal skin lipid film and contributes to limit itching and bacterial and fungal growth. **Actea™ Shampoo** can therefore be used for regular and frequent cleansing, in the case of normal skin, as well as for helping prevent and treat skin conditions of various origins in susceptible subjects, thanks to its protective and soothing action.

Actea™ Shampoo is generally recommended as a skin and coat detergent in any situation where the physiological conditions of the skin need to be restored.
