MONGE: A CUTTING-EDGE COMPANY MADE IN ITALY

MONGE THINKS GREEN

OUR COMMITMENT TO ENVIRONMENTAL SUSTAINABILITY

We promote policies aimed at developing a sustainable economy. We produce our own empty cans, which, like the trays, can be recycled indefinitely. 80% of the energy we consume is self-generated thanks to solar panels installed on the roofs of the plant, a cogenerator and a turbine. The heating of our production plant is self-generated by reusing warm water utilized in the production phases. More than 90% of the waste produced in our plant can be recycled. Monge's logistics fleet distributes our products over short and medium distances and consists of ecologically advanced vehicles, including those powered by liquefied natural gas. For us, the love for animals goes hand in hand with environmental protection.

INNOVATIVE TECHNOLOGIES AND BIG NUMBERS

- > 170.000 TONS DRY FOOD
- > 180.000 TONS WET FOOD
- > 14 PACKAGING LINES
- > 3 EXTRUDERS
- > 7.200 m^2 AUTOMATIC WAREHOUSE
- > WENGER+ BUHLER TECHNOLOGY
- > 80% SELF-GENERATED ELECTRICITY

Monge & C. S.p.A.'s certifications:

AEO · BRCGS Food Safety CERTIFICATED · IFS Food · SMETA Sedex Member

MONGE IS THE MOST IMPORTANT ITALIAN MANUFACTURER OF PET FOOD FOR DOGS AND CATS.

The headquarters in Monasterolo di Savigliano, in the province of Cuneo, house all departments: production, analysis, quality, R&D, logistics, marketing and management.The strategic vision of the Monge Family and the commitment of all its employees guarantee the highest quality of all products.

The most innovative dry food plant in Europe, state-of-the-art production and packaging lines and an automatic warehouse ensure the best technology in the production process.

The company devotes time and resources in finding innovative, natural and cruelty-free solutions for the development of its products, formulated to support the well-being of our dogs and cats.

The internal R&D department develops the formulations of the recipes to obtain healthy, balanced and complete foods for cats and dogs. Monge selects the best ingredients in order to develop products which provide all essential nutrients. The result is an ideal diet for the daily well-being of our four-legged friends.

MONGE, the Italian pet food family since 1963

Il fondatore Baldassarre Monge

Monge was born in 1963 when Baldassarre Monge understood the importance of offering our pets a complete and balanced diet to meet their nutritional needs.
Then, as now, the Monge family is engaged to ensure the highest product quality and safety for the well-being of our four-legged friends.
Meeting the nutritional needs of our animals does not only mean to keep them fit and healthy: it means much more!
Cuddling with them, spending time together and seeing them grow; the most important thing is what we give them: our love.

"Trust us, trust the love we have for them!"

Baldassare Monge

ISO 14001 ISO 9001 ISO 50001

Monge Natural Superpremium

GRAIN FREE

- GRAIN FREE FORMULA.

- 5 WET PRODUCTS IN 400g CANS.
- MADE IN ITALY

FOLLOW THEIR INSTINCTS

Dogs possess an innate desire to run, wander and stay outdoors. These natural impulses have led us to develop a line of foods that can provide energy and essential nutrients to allow our animals to live according to their natural instinct.

In the innovative line **BWILD "Feed the instinct"** you can find your animal's natural wellness.

The high percentage of ingredients of animal origin - greater than 65% - promotes vitality and optimal palatability to every recipe. Fresh meat promotes protein digestibility and, when combined with animal fats, helps concentrate energy density and support optimal performance during sports and/or work activities. The presence of omega-3 fatty acids, including through the use of salmon oil and linseeds, provides a shiny and healthy skin and coat.

The ingredients of animal origin have been combined with different mixes of fruits and vegetables, vegetable fiber sources, useful to regulate the intestinal transit and to bring a greater variety of taste.

LOW GRAIN

BWild
FEED THE INSTINCT

The result of **Made in Italy** research has allowed the development of a more conscious, advanced nutrition, through the use of functional ingredients. Beyond their nutritional properties, they have demonstrated the ability to carry out specific functions that can impact positively on animal well-being.
The continuous research into innovative raw ingredients is driven by our experience and passion. This has allowed animal nutrition to improve by using ingredients belonging to the "superfood" category. Superfoods are nutrient-rich ingredients that support the physiological well-being of the animal.
In full respect of its nutritional philosophy, Monge Bwild is formulated without artificial dyes and preservatives. Conservation is guaranteed by the use of tocopherol extracts from vegetable oils. Tocopherol extracts are technological additives of natural origin with antioxidant function to protect the food from external agents.
A complete and differentiated nutritional program for size, age and physiological condition, to guarantee each animal a dedicated balanced diet.

FORMULATED WITHOUT POTATOES AND WITH REDUCED CEREAL CONTENT.

ALTERNATIVE PROTEIN SOURCES: DEER, GOOSE, WILD BOAR.

WITH APPLE, PINEAPPLE AND FOREST FRUITS.

COMPLETE, BALANCED PET FOODS WITHOUT DYES AND PRESERVATIVES.

8 DRY PRODUCTS FOR DOGS OF ALL BREEDS, INCLUDING 1 PUPPIES.

MADE IN ITALY

Superfood and different fruit and vegetable mixes

BWILD “Feed the instinct”
is the innovative line designed by Monge
to feed dogs according to their natural instinct.
Ingredients of animal origin have been
combined with functional ingredients,
superfood and different fruit and vegetable
mixes, selected for their nutritional properties
and to support the physiological functions
of the animal.

FUNCTIONAL INGREDIENTS

XILO-OLIGOSACCHARIDE:
Next-generation prebiotic plant fibers which support intestinal well-being and favour a positive selection of intestinal microbial flora.

MANNAN-OLIGOSACCHARIDES:
Plant fibers with high hydro-solubility to regularize the intestinal tract and maintain an ideal body weight.

SPIRULINA:
Micro-algae (arthrospira platensis) with antioxidant function to neutralize free radicals. Source of essential amino acids and vitamins to support vitality.

LOW GRAIN

BWild
FEED THE INSTINCT

LINSEED

Plant seeds with high content of omega-3 fatty acids for a soft shiny coat.

SALMON OIL

Precious animal oil rich in omega-3 fatty acids to support hair and skin integrity.

BLACKBERRIES

Forest fruits particularly rich in antioxidants, such as anthocyanins, to neutralize free radicals.

CRANBERRIES

Forest fruit particularly rich in arbutin, a component that stimulates the physiological production of urine.

OATS

Ancient wholegrain cereal, rich in insoluble fibers to provide energy by limiting glycemic peaks.

VEGETABLE MIXES

Tapioca, yellow peas, carrots, tomatoes and potatoes.

FRUIT MIXES

Apple, raspberries, cranberries, blackberries and pineapple.

FRUIT AND VEGETABLE MIXES

Pumpkin, zucchini, raspberries, cranberries, blackberries.

YUCCA SCHIDIGERA:
Precious tuber native to America. Characterized by a natural content of saponins, which are able to bind ammonia and limit unpleasant odours.

GLUCOSAMINE:
Essential component of joints supports the integrity of the cartilage. Cartilage is the lining tissue that protects the joint ends of the bones.

CHONDROITIN SULPHATE:
Fundamental component of cartilage tissue for the support of joint elasticity. Promotes resistance to pressure and stress.
