Monge®

Natural Superpremium

The pet food that tells it like it is

MONGE, THE ITALIAN PET FOOD FAMILY SINCE 1963.

Monge was born in 1963 when Baldassarre Monge understood the importance of offering our pets a complete and balanced diet to meet their nutritional needs.
Then, as now, the Monge family is engaged to ensure the highest product quality and safety for the well-being of our four-legged friends.
Meeting the nutritional needs of our animals does not only mean to keep them fit and healthy: it means much more!
Cuddling with them, spending time together and seeing them grow; the most important thing is what we give them: our love.

Trust us, trust the love we have for them!"

Baldassarre Monge

A CUTTING-EDGE COMPANY MADE IN ITALY

MONGE IS THE MOST IMPORTANT ITALIAN MANUFACTURER OF PET FOOD FOR CATS AND DOGS.

The headquarters in Monasterolo di Savigliano, in the province of Cuneo, house all departments: production, analysis, quality, R&D, logistics, marketing and management.The strategic vision of the Monge Family and the commitment of all its employees guarantee the highest quality of all products.
The most innovative dry food plant in Europe, state-of-the-art production and packaging lines and an automatic warehouse ensure the best technology in the production process.
The company devotes time and resources in finding innovative, natural and cruelty-free solutions for the development of its products, formulated to support the well-being of our dogs and cats.
The internal R&D department develops the formulations of the recipes to obtain healthy, balanced and complete foods for cats and dogs.Monge selects the best ingredients in order to develop products which provide all essential nutrients. The result is an ideal diet for the daily well-being of our four-legged friends.

INNOVATIVE TECHNOLOGIES AND BIG NUMBERS

- 170.000 TONS DRY FOOD
- 180.000 TONS WET FOOD

SMETA Sedex Member
QS ISO 14001
QS ISO 9001
QS ISO 50001

MONGE THINKS GREEN

OUR COMMITMENT TO ENVIRONMENTAL SUSTAINABILITY

We promote policies aimed at developing a sustainable economy. We produce our own empty cans, which, like the trays, can be recycled indefinitely. 80% of the energy we consume is self-generated thanks to solar panels installed on the roofs of the plant, a cogenerator and a turbine. The heating of our production plant is self-generated by reusing warm water utilized in the production phases. More than 90% of the waste produced in our plant can be recycled. Monge's logistics fleet distributes our products over short and medium distances and consists of ecologically advanced vehicles, including those powered by liquefied natural gas. For us, the love for animals goes hand in hand with environmental protection.

Monge
Natural Superpremium

Monge Natural Superpremium is the result of 60 years' solid experience feeding our little furry friends. It offers not only tasty, nutritious recipes but also complete balanced diets for the wellbeing of each and every age and size of animal. Each formulation is developed taking into account an animal's ideal body weight, age, activity and lifestyle. All recipes are the result of Made in Italy research and a constant exchange of views with breeders, consumers and nutritionists in order to achieve a tasty balanced product. Protein sources carefully selected for their nutritional value, together with fats, vitamins and minerals, come together to create the basic nutrients for each recipe. The strength of Monge Superpremium lies in its animal protein source as first ingredient, together with the carbohydrate sources, and all made highly digestible through the extrusion process. Recipes include fresh meat.

The dog line offers products for specific ages, sizes and nutritional requirements. Bags come in 12kg, 7.5kg, 3kg, 2.5kg, 1.5kg and 800g sizes to meet all consumer needs.

The range is divided into:

DAILY LINE

Daily care for dogs of all sizes
(Extra small, Mini, Medium and Maxi)

Stage of lifecycle (Starter, Puppy&Junior, Adult and Senior)

MONOPROTEIN LINE

Single protein recipes, developed with a single source of animal protein for dogs with special dietary needs.
The range of single protein sources available make it a truly unique product line.

SPECIALITY LINE

Specialty products for animals with specific physiological nutritional requirements, such as sports dogs or dogs needing to maintain an ideal body weight.

AMONG THE NUTRITIONAL CHARACTERISTICS:

Xylooligosaccharides (XOS) are next-generation prebiotics, i.e. non-digestible carbohydrates capable of reaching the colon, thereby promoting the growth and activity of beneficial microbial intestinal flora. XOS withstand gastric acidity and enzymes in the gastrointestinal tract. They are not absorbed but are fermented by intestinal microorganisms and selectively promote growth of the intestinal flora to support the immune system.

ANIMAL PROTEIN SOURCE 1° INGREDIENT

HIGHLY-DIGESTIBLE PROTEIN SOURCES SELECTED FOR THEIR NUTRITIONAL VALUES

WITH NATURAL ANTIOXIDANTS

EXTRACT OF TOCOPHEROLS FROM VEGETABLE OILS

OUR SUPERFOODS:

ARTICHOKE

ARTICHOKE SUPPORTS THE LIVER'S DIGESTIVE AND METABOLIC FUNCTIONS, AS WELL AS BEING A NATURAL SOURCE OF PLANT FIBER

CHESTNUT

PROVIDES AN ACTION SIMILAR TO THE ASTRINGENT AND NUTRITIVE EFFECT OF THE GASTRO-INTESTINAL MUCOSA

ECHINACEA

WITH ANTIOXIDANT PROPERTIES THAT HELP NEUTRALIZE FREE RADICALS RELEASED BY STRESS

SPIRULINA

SUPPORTS THE IMMUNE SYSTEM

OREGANO

ITS ANATIOXIDANT PROPERTIES HELP COUNTER FREE RADICALS AND AID THE LIVER'S METABOLISM

SUNFLOWER SEEDS

RICH IN OMEGA-6

BROWN RICE

SOURCE OF VEGETAL FIBERS

MONGE NATURAL SUPERPREMIUM - HYPO WITH SALMON AND TUNA. COMPLETE DIETETIC FEED FOR ADULT DOGS OF EVERY SIZE. Formulated for the reduction of ingredient and nutrient intolerances with a selected carbohydrate source (rice). The formulation is characterised by essential fatty acids to support the skin and coat. **COMPOSITION:** Rice (58%), salmon (dried 10% and fresh 8%), tuna (dried 10%), brewers' yeast inactivated, vegetable oil (corn oil refined), fish oil (salmon oil purified at 99.5%), dried beet pulp, minerals, Xylo-oligosaccharide (XOS 0,3%), Yucca schidigera, yeasts products (source of mannan-oligosaccharides MOS), Chondroitin sulphate, Glucosamine. Selected carbohydrate source: rice. **ANALYTICAL CONSTITUENTS:** Crude protein: 24%, Crude fibre: 2.0%, Crude fat: 12%, Crude Ash: 6.5%, Calcium: 1.4%, Phosphorus: 1.1%, n-6 essential fatty acids: 3.6%, n-3 essential fatty acids: 0.9%. Metabolisable Energy (Atwater calculation): 3,940 kcal/kg. **ADDITIVES/kg:** Nutritional additives: Vitamin A (Retinyl Acetate) 35,000 IU, Vitamin D3 1,850 IU, Vitamin E (all-rac-alpha-tocopheryl-acetate 3a700i) 80 mg, Choline Chloride 3,600 mg, Manganese (manganous sulphate monohydrate 99 mg) 32 mg, Zinc (Zinc oxide 187 mg) 150 mg, Copper (Copper (II) sulphate pentahydrate 50 mg) 12 mg, Iron (Iron (II) sulphate monohydrate 326 mg) 107 mg, Selenium (Sodium selenite 0.4 mg) 0.2 mg, Iodine (Calcium iodate anhydrous 2.6 mg) 1.7 mg, L-carnitine: 100 mg. TECHNOLOGICAL ADDITIVES: Tocopherol extracts from vegetable oils. **INSTRUCTIONS FOR USE:** It is recommended that a veterinarian's opinion be sought before use and before extending the period of use. Recommended length of time: 3 to 8 weeks. If signs of intolerance disappear this feed can be used initially up to one year. Recommended daily feeding intakes (see table) may be split into 2 meals. Individual nutritional requirements may vary due to size, age and activity level of the animal. Fresh and clean water should be available at all times. When this product replaces another type of feed and/or diet it is recommended to introduce it gradually over a period of at least 1 week.

Monge MONOPROTEIN* with fruit

Monge Monoprotein* with fruit is a complete pet food line formulated with a single animal protein source and a single alternative carbohydrate source, tapioca. The **addition of fruit** like **apple** makes it a true concentrate of nutrients, such as vitamins and minerals. Apple is also a rich source of vegetable fiber, supporting regular bowl movement, as well as helping the body digest and absorb nutrients. The addition of **pineapple** (a natural source of vitamins and Vitamin A in particular), and minerals such as calcium, phosphorus and potassium, guarantee a balanced supply of all essential nutrients.
